Technical Skills

- **Languages:** C++, Python, JavaScript, TypeScript, SQL, HTML/CSS
- **Frontend:** React.js, Next.js, Tailwind CSS, Socket.io
- **Backend:** Node.js, Express.js, FastAPI, REST APIs
- **Databases:** PostgreSQL, MongoDB, NeonDB
- **AI/LLM:** OpenAI API, LangChain, RAG, FAISS, Prompt Engineering
- **Core CS:** Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks, OOP
- **Tools:** Git, Docker, Linux, Bash, Postman, VS Code

Work Experience

Fractal Analytics

May 2025 – July 2025

Software Engineering Intern

Bangalore, India

- Designed a multi-agent automation framework using LangChain to streamline UI-to-code workflows, reducing manual development effort by 25%.
- Built scalable FastAPI services and optimized dashboard performance, improving real-time data streaming efficiency by 40%.
- Collaborated with cross-functional teams to integrate and deploy Generative AI solutions with a focus on maintainability and scalability.

Projects

ClarityMeet – AI Meeting Intelligence SaaS

Jul 2026 – Present

Next.js, TypeScript, PostgreSQL, OpenAI

Live — GitHub

- Built a production-style SaaS that converts meeting transcripts into executive summaries, decision logs, action items, risks, and follow-up tasks, reducing manual documentation effort by 80%.
- Implemented AI-powered export to DOCX and PPTX, enabling professional meeting deliverables in a single click.
- Designed transcript-processing workflows to preserve key details while improving readability.

CodeLens AI – AI-Powered Code Review Platform

Jun 2026 – Aug 2026

Next.js, TypeScript, OpenAI, Monaco Editor

Live — GitHub

- Developed an AI-assisted code analysis platform supporting real-time code explanation, bug detection, and optimization suggestions for developer workflows.
- Integrated Monaco Editor with real-time analysis workflows to provide an interactive browser-based code review experience.
- Implemented prompt pipelines for bug detection, readability improvement, and complexity analysis.

LinguaGenie – AI-Powered Universal Translator

May 2025 – Jul 2025

MERN Stack, Socket.io, Groq LLM, Speech Recognition

Live — GitHub

- Engineered a real-time translation platform with Socket.io, enabling low-latency multilingual communication with streaming text and voice support.
- Integrated Llama-3 70B through Groq API inference to improve semantic accuracy and tone preservation.
- Built a streaming voice-to-text pipeline using Web Speech APIs.

Achievements

- Solved **500+** Data Structures and Algorithms problems on LeetCode.
- Participated in **HackNIT**, the annual hackathon organized by NIT Rourkela.
- Led logistics and technical coordination for **50+ events** as an Innovision Event Coordinator serving over **7,000 attendees**.
- Maintained an overall **CGPA of 7.74/10** at NIT Rourkela.

Education

National Institute of Technology, Rourkela

Nov 2022 – Jun 2026

B.Tech in Electrical Engineering (CGPA: 7.74/10)

Rourkela, Odisha

Jawahar Navodaya Vidyalaya, Mundali

May 2021

CBSE Class XII – Science Stream (93%)

Cuttack, Odisha

Jawahar Navodaya Vidyalaya, Mundali

May 2019

CBSE Class X (96.8%)

Cuttack, Odisha
